West Development Office
Civil Engineering and Development Department

CERTIFICATE OF APPRECIATION

is awarded to

Glorious Concrete (H. K.) Limited

In recognition of their valuable expertise, advice and dedicated support rendered to the successful application of

Low-density Engineered Cementitious Composite (LD-ECC)

for the road embankment construction of slip road at
Shap Pat Heung Interchange

under

CEDD Contract No. YL/2021/04
Site Formation and Infrastructure Works for Yuen Long South First Phase Development – Contract 2

The innovative use of LD-ECC in road embankment construction represents an important milestone in advancing construction technologies in Hong Kong.

West Development Office of Civil Engineering and Development Department hereby express sincere appreciation and gratitude for the contribution made by Glorious Concrete (H. K.) Ltd. throughout this landmark application of engineering material.
